Meet the Sea Creatures!

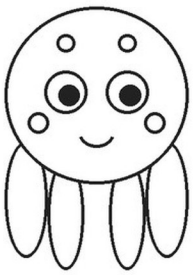

Whale

The blue whale is the biggest animal that has ever lived on Earth.

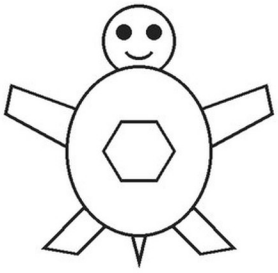

Dolphin

Dolphins breathe air through a blowhole on the top of their heads.

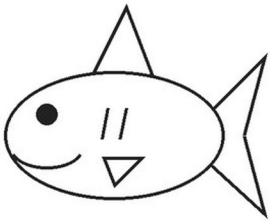

Octopus

An octopus has eight arms and three hearts!

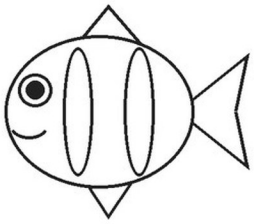

Sea Turtle

Sea turtles lay their eggs in holes they dig in sandy beaches.

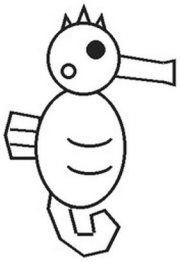

Shark

Sharks lose teeth all the time, and new ones grow in to take their place.

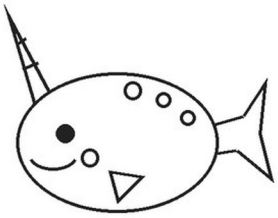

Clownfish

Clownfish live in sea anemones. A slimy coat keeps them from getting stung.

Seahorse

Seahorse dads carry the eggs in a pouch until the babies are born.

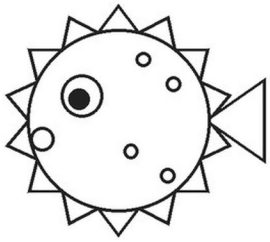

Narwhal

A narwhal's long tusk is really a tooth that grows out through its lip.

Jellyfish

Jellyfish have no brain, no heart and no bones!

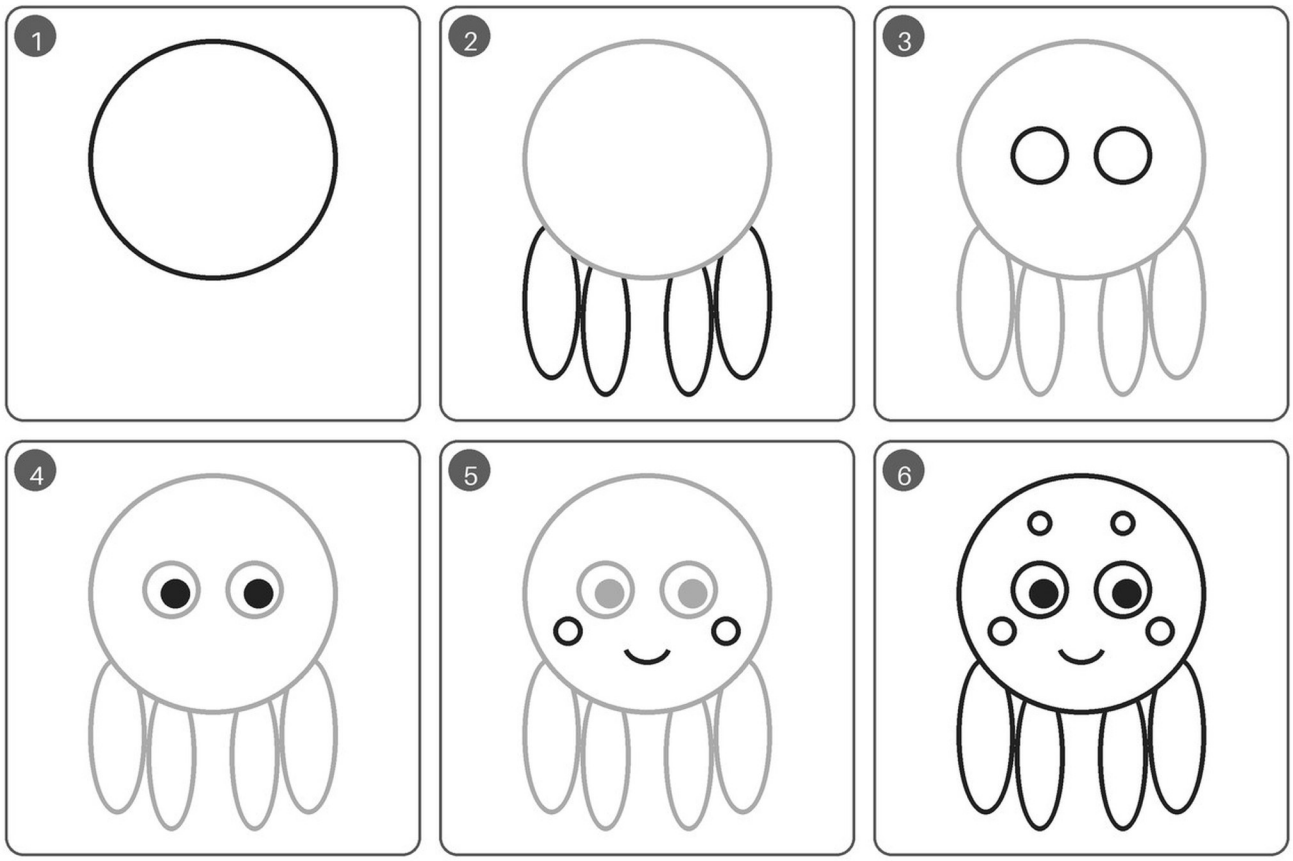

Pufferfish

A pufferfish can puff up like a ball by gulping lots of water.

How to Draw an Octopus

Follow the steps, then draw it yourself in the box below!

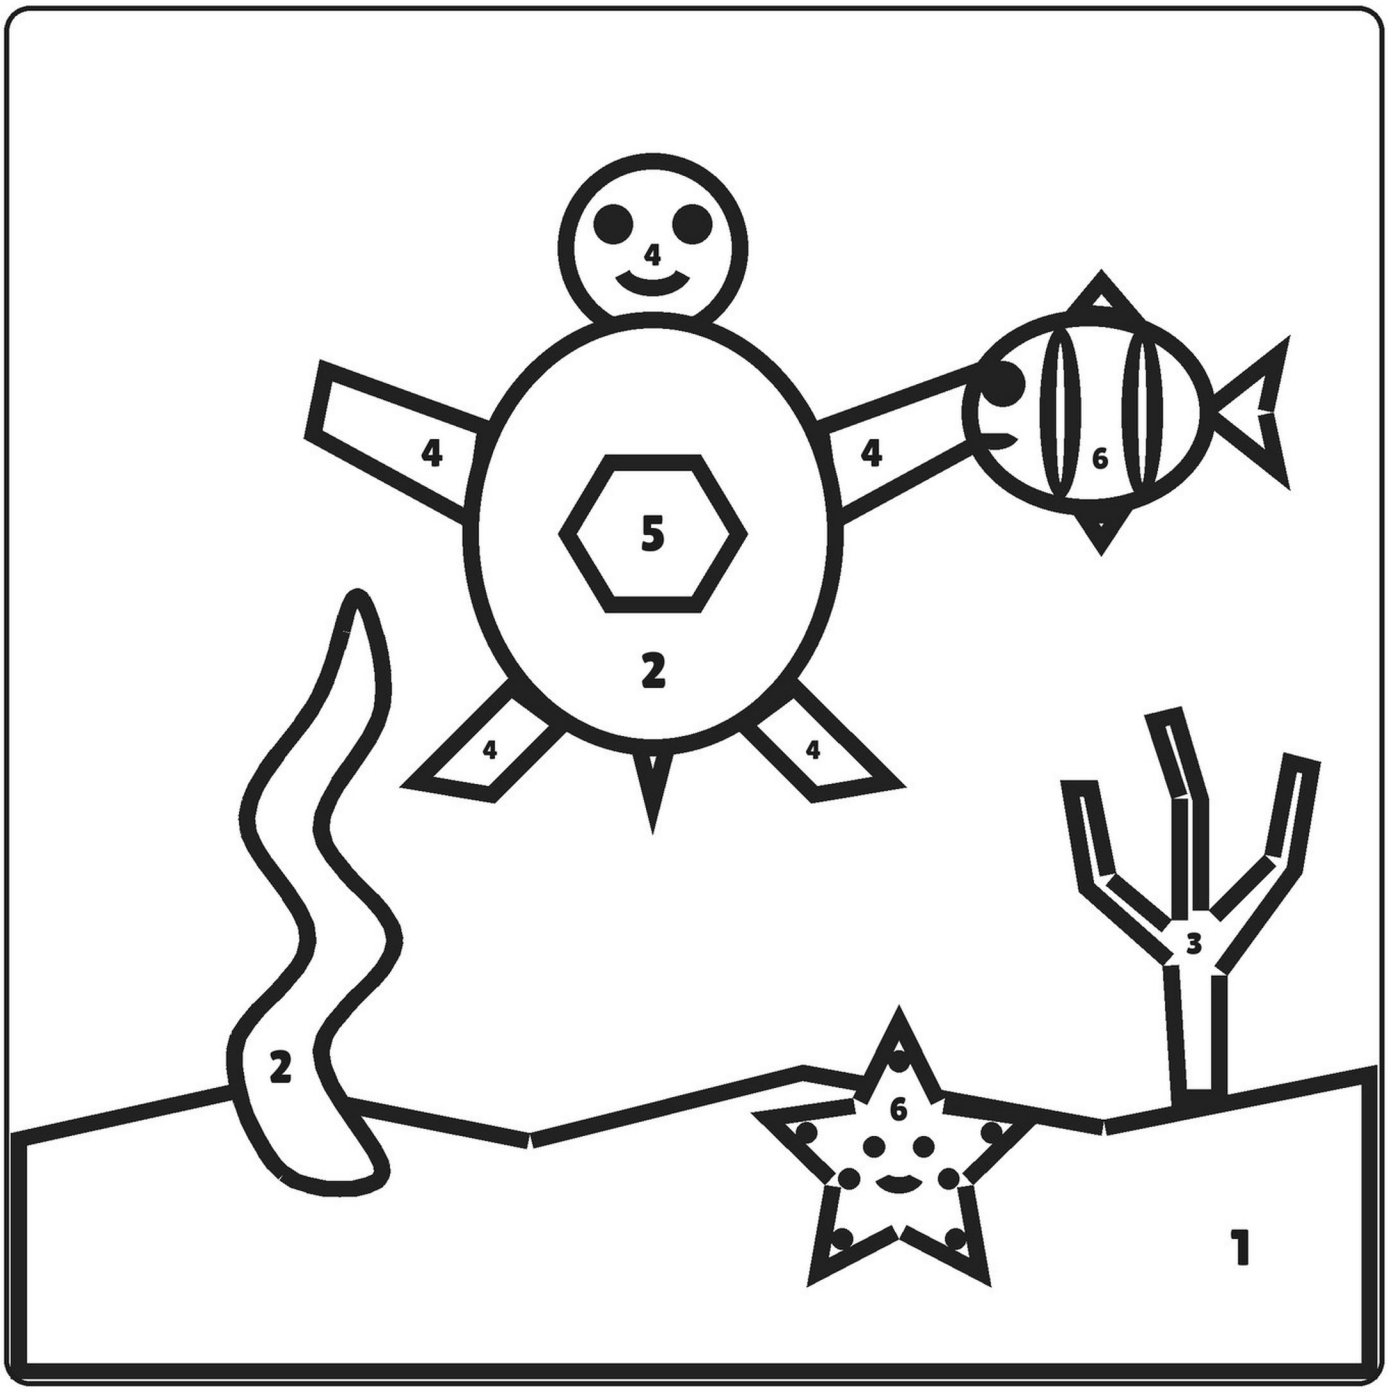

Did you know? An octopus has eight arms and three hearts!

Your turn!

Color by Number

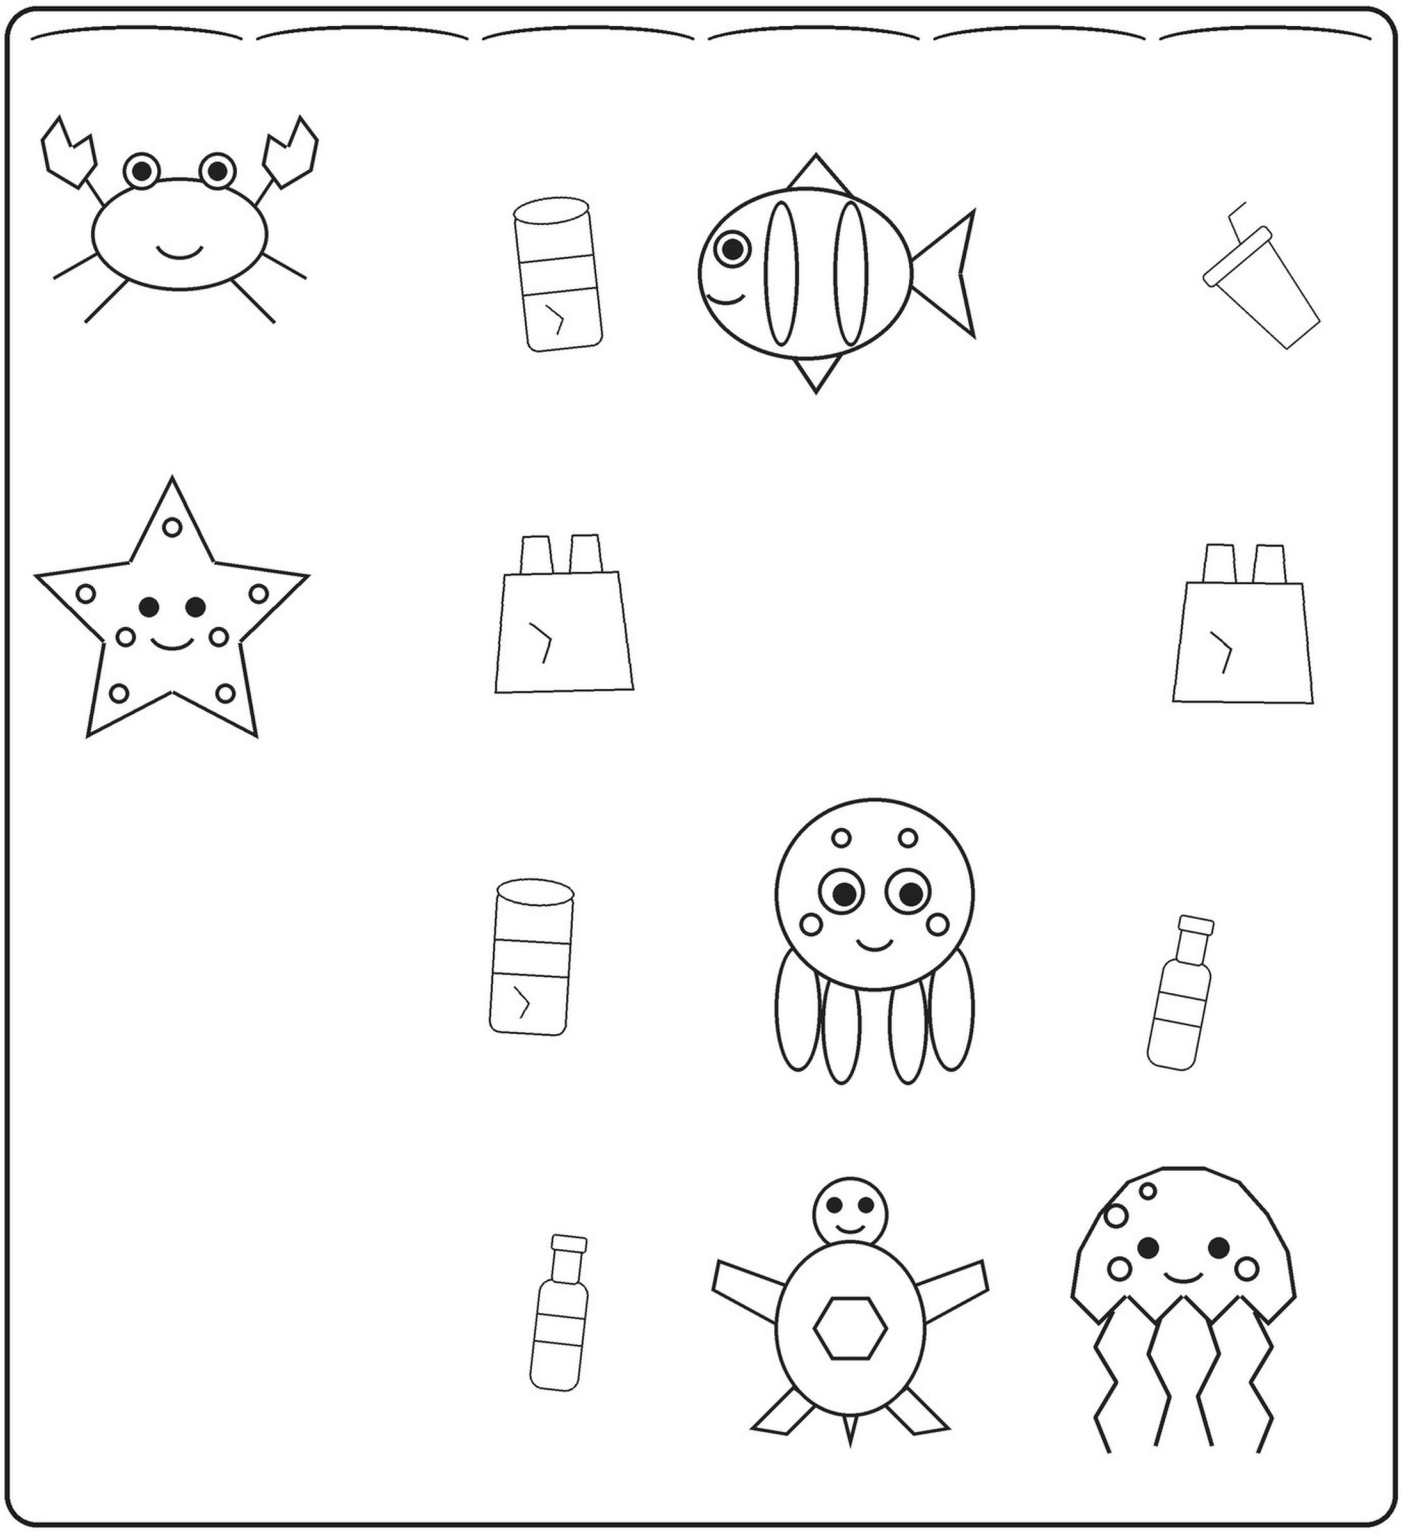

Color each part with the crayon that matches its number!

1 light brown	**2** green	**3** pink	**4** blue
5 yellow	**6** orange		

Clean the Ocean!

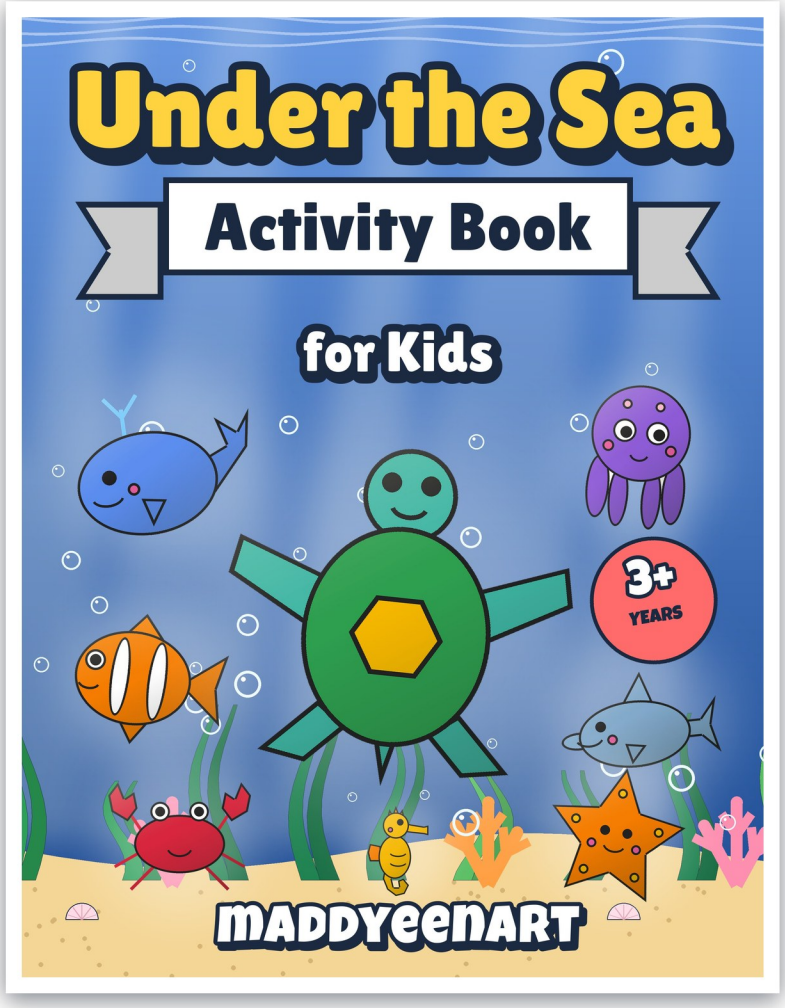

Oh no! There is rubbish in the sea. Find and circle all 7 pieces of rubbish!

You can help too! Put rubbish in the bin, use a refillable water bottle, and never leave litter on the beach.
